

# How to Calculate Your Estimated Taxes

To calculate your estimated taxes, you will take your assessed value and multiply it by the total tax rate, then divide that total by 100.

Assessed Value X Tax Rate / 100 = Estimated Taxes

If you have any questions regarding your taxes or your estimated taxes, please contact the Victoria Tax Office at 361-576-3671.

These are the 2021 tax rates, the 2022 tax rates will not be adopted until September of 2022.
